

5b.Job Application Command Center — Page Elements Use Case

Aim:

To design and build a single internal "Command Center" Page in Zoho Creator for the "Recruitment & Job Application Management" application, demonstrating the correct usage of all eleven Page Builder elements to provide a unified operational workspace for HR recruitment teams, hiring managers, and interview panels.

Page Elements Used Overview

Page Element	Element Name	Purpose	Placement on Page
Panel	Command_Center_Main_Panel	Acts as the primary structural container grouping all elements into one cohesive dashboard.	Wraps the entire page as the outer layout container.
Board	Application_Status_Board	Provides a Kanban-style board to drag candidates between hiring-pipeline stages.	Central column with stages: Applied, Screening, Interview, Offer, Rejected.
Chart	Department_Applications_Chart_Widget	Visualizes live application	Top-right area, next
